Dear Mr Poonpipope Kasemsap,

RE: INVITATION TO PARTICIPATE IN THE MYANMAR GREEN ENERGY SUMMIT 2016, 15th -16th AUGUST 2016, SULE SHANGRI-LA HOTEL, YANGON, MYANMAR – IN CONJUNCTION WITH THE SUSTAINABLE ENERGY & WATER RESOURCES MANAGEMENT WEEK

Warm greetings from Myanmar Green Energy Summit 2016 Secretariat!

We are pleased to announce that Yangon, Myanmar will play host to the 4th Myanmar Green Energy Summit (MGES 2016) from August 15th – 16th, 2016 in conjunction with the “Sustainable Energy and Water Resources Management Week” at Sule Shangri-La Hotel, Yangon, Myanmar.

After more than 50 years under the military ruling, Myanmar is poised for change under the leadership of its first elected civilian president. The new government along with multilateral development agencies is committed to take Myanmar into new heights of development by effectively mobilise and allocate the financial resources to support its development needs and aggressively promote foreign direct investment to the country.

The Government of Myanmar along with key stakeholders from the water and energy industries have strategically planned and announced the “Sustainable Energy and Water Resources Management Week” that consists of two flagship conferences, namely, the Global Water Conference 2016 and the 4th Myanmar Green Energy Summit 2016 to address the pertinent issues in both water and energy sectors of the country.

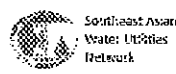

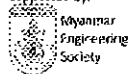

With extensive developments in plan, Myanmar targeted to increase an addition of 18,565 MW, with renewable energy accounted for 61%. The Myanmar National Energy Management Committee (NEMC) has announced a 15 years Myanmar Energy Master Plan to meet the increasing demand of electricity in order to achieve universal electrification by 2030. This plan mapped with comprehensive country direction, list of projects, project locations and execution plans.

The hosting of the Myanmar Green Energy Summit 2016 will once again bring together Hydropower, Solar, Wind, Bioenergy stakeholders comprising policy makers, developers, consultants, manufacturers, investors and financiers from all over 20 countries to Myanmar with the agenda to provide a platform for exchange of information and updates on Myanmar's present energy security and access to energy status and development plan of the electric power and renewable energy sector in Myanmar.

The MGES2016 themed '*Gearing Up the Green Energy Development: New Directions and Strategies*' will address current status and provide updates on the following areas:

- Investment Policies and Financing Options for Green Energy in Myanmar
- Electrified Remote and Rural Areas for Economic Growth
- Solar As Sustainable Energy Source for Myanmar
- Optimising Wind Energy in Myanmar Energy Mix
- Powering Myanmar through Hydropower
- Transmission and Distribution Plan for Sustainable Energy Security

Alongside the conferences is a 4-day International Exhibition showcasing practical and sustainable electric power industry & renewable energy solutions provider and water & wastewater industry under one roof. In this respect, the "**Sustainable Energy and Water Resources Management Week**" has been earmarked as one of the impetuses to assist the government in promoting the water and energy agendas, where the national and regional publicity and marketing campaigns are being implemented to intensify foreign and local participations. Participating local and foreign media have assured technology and brand exposure for companies attending the conference and exposition.

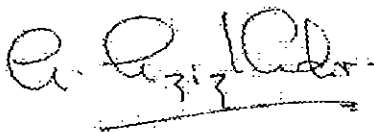

On behalf of the Executive Advisory and the Organizing Committees, I take great pleasure in inviting your esteemed organization to organize a delegation to the Myanmar Green Energy Summit 2016. The benefits of attending Myanmar Green Energy Summit 2016 (**MGES 2016**) including:

- Engage global energy leaders and experts
- Uncover trends, insights and opportunities
- Be updated with the latest policies and regulations
- Connect with the who's who in electric power industry & renewable energy solution
- Network with government authorities and potential business partners
- Pre-arrange business matching meetings with local & International industry players

Should you require further clarification or information, please do not hesitate to get the person in charge to contact the secretariat, **Mr. Jason Choong** at +603 2771 1668 or email to Jason.Choong@confexhub.com.

Thank You.

Yours Faithfully,

Datuk Dr. Abdul Aziz S.A. Kadir
